**I agree to abide by the following conditions: \***

- the installation is for retrofitting of existing residential properties, not new dwellings,
- I have discussed with Council staff or attended an information workshop on the rebate process,
- details of work carried out will be provided to Council for case study purposes (as per 'Case Study' template) -
- installation is carried out in accordance with Council and NSW State planning and building requirements,
- Council reserves the right to inspect installation within six months of completion
- original receipts of purchases are provided (note if you are claiming Sydney Water rebate please provide copy of receipt with the licensed plumbers declaration)
- the rebate for solar hot water systems is based on the amount of greenhouse gas emissions saved. A minimum of 20 Renewable Energy Certificates (RECs), apply
- Randwick City Council accepts NO responsibility for works carried out, warranties, damages or liabilities from works carried out on items purchased and installed as a result of Council's Sustainability promotion
- rebates apply to the purchase price of rainwater tanks, greywater systems, energy saving downlights and ceiling installation.
