

## SUSTAINABLE HOME MAKEOVER REBATES

RAINWATER TANKS | GREYWATER SYSTEMS | ENERGY SAVING  
DOWNLIGHTS | CEILING INSULATION | SOLAR HOT WATER SYSTEMS

Randwick City Council is offering residents the opportunity to save energy and water in the home by providing rebates for the installation of rainwater tanks, greywater systems, energy saving downlights, ceiling insulation and solar hot water systems.

### How do I qualify for a rebate?

<b>Eligibility Checklist*</b>	✓
Are you are a resident/ home owner in Randwick?	
Are you retrofitting an existing property, not constructing a new dwelling?	
Note that installation should be completed by 30 April 2009	
Attended an information workshop provided by Council or discussed with Council staff the rebate process? (Workshops will close early or be extended subject to numbers).	
Agree to provide details of work carried out and provide photographs for case study purposes.	
Check that the total rebate is not more than the total cost of the product purchased and installed.	
Note that Council reserves the right to inspect work within a six (6) month period of completion.	
Note that receipt(s) need to be provided to Council to receive rebate.	
Sign an agreement to complete your installation according to Council conditions.	

\*limited number of rebates available, conditions apply (see [www.randwick.nsw.gov.au](http://www.randwick.nsw.gov.au) for further information).

## RAINWATER TANK REBATE

Did you know up to 40% of households water use can be replaced with rainwater?

Tank(s) capacity	Rebate	Connection to Toilet(s)	Connection to Washing Machine(s)	Max. Total
300 - 799 litres	\$100	\$150	\$150	\$400
800 - 1399 litres	\$200	\$150	\$150	\$500
1400 -1999 litres	\$400	\$150	\$150	\$700
Over 2000 litres	\$600	\$150	\$150	\$900

## ENERGY EFFICIENT DOWNLIGHT REBATE

Did you know that up to 90% of household lighting costs can be saved by replacing halogen downlights with energy saving lights?

Energy Saving Down lights	Rebate
CFL LED's	40% of purchase price or up to \$800 per household

## GREYWATER SYSTEM REBATE

Grey water system	Rebate
NSW Government accredited greywater systems	\$1800

## CEILING INSULATION

In an average Australian home, ceiling insulation can save up to 25% off your heating and cooling bill.

Ceiling insulation	Rebate
Minimum added R-value 3. Covers entire ceiling area. Complies with Australian Standard for insulation.	\$300

## SOLAR HOT WATER SYSTEMS

Water heating is the biggest energy user in NSW homes. By switching to a climate-friendly hot water system, you can save up to 30% on your energy bills per year.

Solar hot water systems	Rebate
Replacement of electric hot water system.	\$500

You may wish to check the Commonwealth or NSW Government websites to see if you are eligible for any other rebates, discounts etc.
